PHYSICAL HANDOVER OF SECURED ASSETS & RELINQUISHMENT OF MANAGEMENT CONTROL TO CFM ASSET RECONSTRUCTION PRIVATE LIMITED (ASSET RECONSTRUCTION COMPANY)

As you are aware the consortium of bankers led by Bank of Baroda had filed an application with the National Company Law Tribunal (NCLT), Ahmadabad for recovery of their dues in September 2018 under the Insolvency and Bankruptcy Code, 2016. The said application has been dismissed and disposed off by the Court in April 2021.

However, on 13th August, 2021, all the lenders (except Tamilnad Mercantile Bank Ltd) (TMB) have assigned the debts along with all the rights and interests on the secured assets to CFM Asset Reconstruction Private Limited (CFM) under the Securitization and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002 (SARFAESI) by executing two Assignment Agreements both dated 13th August, 2021. A total of 14 fourteen lenders aggregating approximately 99 % of the total debt of the Company have assigned their debt to an Asset Reconstruction Company called CFM Asset Reconstruction Private Limited as on 31st March, 2022.

As you are also aware, the Board of Directors' are no longer in the helm of affairs of the Company v.e.f - 13th August, 2021. CFM is closely monitoring and managing the day to day plant and corporate office operations through Deloitte Touche Tohmatsu India LLP, Mumbai who has been appointed as the nodal agency by CFM.

Further, to the intimation of the said assignment, CFM has also issued a demand notice under Section 13(2) of the SARFAESI Act, 2002 and the rules framed there under to recover the entire dues including principal and interest. In response to the said notice, the Company has given an "In principle consent" to handover the secured assets of the Company to CFM. Subsequently, the authorised officer of CFM has taken physical possession of secured assets of the Company on 11th November, 2021.

The Company was in receipt of Intimation for sale of secured assets by way of private treaty under the SARFAESI Act, 2002 on 11th May, 2022 to Madelin Enterprises Private Limited (MEPL).

DIVIDEND

With the handover of the secured assets of the Company to Madelin Enterprises Pvt Ltd (MEPL), have not recommended dividend on equity shares of the Company for the year 2022-23.

However, the dividend on the preference shares will be carried forward for payment in the next financial year.

SHARE CAPITAL

The paid up Equity Share Capital as on 31st March, 2023 was ₹ 81.87 crores and Preference Share Capital as on 31st March, 2023 was ₹ 14.91 crores.

RESERVES & SURPLUS

You are well aware that, the balance standing in the Equity Share Capital account along with Other Equity account (Reserves and Surplus) has completely been eroded due repossession of assets by the Lender. The net worth of the Company has turned negative as on the Balance Sheet date.

PERFORMANCE OF THE COMPANY

The Company's revenue for financial year 2022-23 was ₹ 1097.17 crores against ₹ 3272.23 crores for the previous year. This was primarily due to efficient management of cash flows, better margins and resurgent market conditions especially during the festive season in the last two quarters

The Board would like to bring to the attention of all stakeholders that the step down subsidiary namely JBF Petrochemicals Limited (JPL) had defaulted in payment of interest and repayment of principal to its lenders in FY17-18. The consortium of lenders with IDBI Bank as the lead banker had made an application under the Insolvency Bankruptcy Code, 2016 (IBC) to recover their dues before the National Company Law Tribunal, Ahmadabad in May 2018. The matter was heard and the said application has been admitted under the Insolvency Bankruptcy Code, 2016 (IBC) on 28th January, 2022. Subsequent to the admission of the application, the Resolution Professional (RP) appointed by the Committee of Creditors (COC) has commenced CIRP proceedings as required under the IBC procedure. The Resolution Professional has taken total control of the plant in Mangalore and the Board of JPL has been suspended effective 28th January, 2022. JBF Trade Invest Pvt Ltd was strike off and . Restructuring process is going on for JBF RAK LLC at UAE.

EXPLANATION/COMMENTS ON AUDIT QUALIFICATIONS

1. The Company's business as a "Going concern" –

As on the date of Balance Sheet, the lenders (except TMB) have assigned all their debts to CFM. CFM has taken physical possession of the secured assets of the Company on 11th November, 2021. Further, CFM has exercised its right to sell the secured assets by way of private treaty under the SARFAESI Act, 2002 to recover their dues.

Also, CFM has been in the helm of affairs of all the plants and corporate affairs of the Company w.e.f. 13th August, 2021 which is as per the provisions of the SARFAESI Act, 2002.

On 11th November 2021, CFM took physical possession of the secured assets of JBF. Further the Company was in receipt of Intimation for sale

of secured assets by way of private treaty under the SARFAESI Act, 2002 on 11th May, 2022 and thereafter, proceeded to sell the same by way of private treaty under the SARFAESI Act to Madelin Enterprises Private Limited (MEPL).

Further to the above mentioned points, we would like to bring to your kind attention that the part secured assets including land, building, sundry debtors, investments, cash and bank balances, deposits, intangible assets (including the SAP software) and other movable assets have been sold to the MEPL by CFM on 6th June 2022 and balance assets were sold by CFM to MEPL on 20th December, 2022. In addition, MEPL has also taken over the affairs and operations of all the three plants and the corporate office and the current Board of Directors have no control over the same. With effect from 1st December, 2022 manufacturing operations from all locations have been discontinued.

2. INTEREST @ 9% ON BORROWINGS

Company has provided interest @ 9% p.a. on borrowings aggregating to ₹ 2,473.80 Crore for the year from 1st April 2022 to 31st March, 2023 as against the documented rate as required as per IND AS -23 "Borrowing Costs" read with IND AS-109 on "Financial Instruments" resulting into lower provision of finance cost for the year ended 31st March 2023 by ₹ 116.68 Crore.

3. CLAIM FILED BY AN OPERATIONAL CREDITOR OF JBF RAK LLC, (step-down subsidiary of the company)

An application filed with National Company Law Tribunal (NCLT), Ahmadabad by one of the operational creditors of JBF RAK, situated at U.A.E., a subsidiary of the Company, against the Company, for supply of raw material to JBF RAK for a claim of ₹128.48 crores (US\$ 19,899,091.53) as per notice dated 17th February, 2020.

Management is of the view that in view of negotiation with the above creditor by JBF RAK and based on past settlement by the Company with above creditor in respect of raw material purchased by the Company, there will be no liability on account of it to the Company and hence no provision is required towards above claim.

Auditors Certificate of Corporate Governance

To
The Members,
JBF Industries Limited

- The Corporate Governance Report prepared by JBF Industries Limited ("the Company"), contains details as stipulated in Regulations 17 to 27 and clauses (b) to (i) of regulation 46(2) and para C and D of Schedule V of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("the Listing Regulations") with respect to Corporate Governance for the year ended 31st March, 2023. This certificate is required by the Company for annual submission to the Stock exchange and to be sent to the shareholders of the Company.

MANAGEMENT'S RESPONSIBILITY

- The preparation of the Corporate Governance Report is the responsibility of the Management of the Company including the preparation and maintenance of all relevant supporting records and documents. This responsibility also includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the Corporate Governance Report.
- The Management along with the Board of Directors are also responsible for ensuring that the Company complies with the conditions of Corporate Governance as stipulated in the Listing Regulations, issued by the Securities and Exchange Board of India.

AUDITOR'S RESPONSIBILITY

- Our responsibility is to provide a reasonable assurance that the Company has complied with the specific requirements of the Listing Regulations referred to in paragraph 1 above.
- We conducted our examination of the Corporate Governance Report in accordance with the Guidance Note on Reports or Certificates for Special Purposes and the Guidance Note on Certification of Corporate Governance, both issued by the Institute of Chartered Accountants of India ("ICAI"). The Guidance Note on Reports or Certificates for Special Purposes requires that we comply with the ethical requirements of the Code of Ethics issued by ICAI.
- We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.
- The procedures selected depend on the auditors' judgement, including the assessment of the risks associated in compliance of the Corporate Governance Report with the applicable criteria. The procedure includes, but not limited to, verification of secretarial records and financial information of the Company and obtained necessary representations and declarations from directors including independent directors of the Company.
- The procedures also include examining evidence supporting the particulars in the Corporate Governance Report on a test basis. Further, our scope of work under this report did not involve us performing audit tests for the purposes of expressing an opinion on the fairness or accuracy of any of the financial information or the financial statements of the Company taken as a whole.

Basis for Qualified Opinion:

- As mentioned under the head "CEO/CFO Certification" in the Corporate Governance Report, the Company does not have Chief Executive Officer and Chief Financial Officer, hence compliance certificate for the year ended 31st March, 2023 have been submitted by the Executive Director in the which was not in compliance with the provisions of Regulation 17(8) in terms of Schedule II Part B of the Listing Obligation and Disclosure Requirement, 2015.
- As mentioned under the head "Subsidiary Company" in the Corporate Governance Report, the minutes of the meetings of the board of directors and financial statements of subsidiaries have not been placed at the meeting of the board of directors of the Company as required under Regulation 24(2) and 24(3) of the Listing Obligation and Disclosure Requirement, 2015.
- As mentioned under the head "Code of Business Conduct and Ethics for Board of Directors, Senior Management and Employees" in the Corporate Governance Report, the Company does not have Chief Executive Officer, hence the necessary declaration given by the Executive Director of the Company regarding compliance of the code of conduct by Directors, Senior Management and the employees not in compliance with para D of Schedule V of the Listing Obligation and Disclosure Requirement, 2015.

QUALIFIED OPINION

- Based on the procedures performed by us as referred in paragraph 7 and 8 above and according to the information and explanations given to us, except the

matters described in the paragraph above 'Basis for Qualified Opinion', we are of the opinion that the Company has complied with the conditions of Corporate Governance as stipulated in the Listing Regulations, as applicable for the year ended 31st March, 2023, referred to in paragraph 1 above.

OTHER MATTERS AND RESTRICTION ON USE

- As mentioned under the head, "Finance Committee", no meeting of the Finance Committee has been conducted during the year.
- This Certificate is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.
- This Certificate is addressed to and provided to the members of the Company solely for the purpose of enabling it to comply with its obligations under the Listing Regulations and should not be used by any other person or for any other purpose. Accordingly, we do not accept or assume any liability or any duty of care or for any other purpose or to any other party to whom it is shown or into whose hands it may come without our prior consent in writing. We have no responsibility to update this Certificate for events and circumstances occurring after the date of this Certificate.

INDEPENDENT AUDITOR'S REPORT ON AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

To

The Members of JBF Industries Limited.

Qualified Opinion

We have audited the accompanying Standalone Financial Statements of JBF Industries Limited ("the Company"), which comprise the balance sheet as at 31st March 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the Standalone Financial Statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind-AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, and its profit including other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Qualified Opinion

(i) As mentioned in Note 34.1 to the Standalone Financial Statements, provision of interest @ 9% p.a. on its borrowings aggregating to ₹ 2,473.79 Crores for the year ended 31st April 2022 to 31st March 2023 as against the documented rate, resulting into lower provision of finance cost for the year ended 31st March, 2023 by ₹ 116.68 Crores, which is not in compliance with Ind AS-23 "Borrowings Costs" read with Ind AS-109 on "Financial Instruments".

Aggregate amount of Interest not provided for as at 31st March, 2023 is ₹ 820.91 crores. Had the interest been provided at the documented rate, finance cost, net loss after tax for the year, total comprehensive income and EPS for the year ended 31st March, 2023 would have been Rs 351.86 Crores, ₹ (1970.14) Crores, ₹ (1975.23) Crores, ₹ (240.64) as against the reported figure of ₹ 235.18 Crores, ₹ (1853.46) Crores, ₹ (1858.55) Crores and ₹ (226.39) in the above Statements.

Further current financial liabilities – others and other equity as at 31st March 2023 would have been ₹ 1277.88 Crores and ₹ (3739.64) Crores respectively as against the reported figure of ₹ 456.97 Crores and ₹ (2918.72) Crores respectively in the above Statements.

(ii) As mentioned in Note 37.3 to the Standalone Financial Statements regarding the application filed with the National Company Law Tribunal (NCLT), by one of the operational creditors of JBF RAK LLC (JBF RAK), situated at UAE, a subsidiary of the company, against the Company, for supply of raw materials to JBF RAK and claim of ₹ 128.48 Crores (US\$ 19,899,091.53) as per notice dated 17th February, 2020. No provision has been considered for the above claim for the reasons stated therein. The matter described in above has uncertainties related to the outcome of the legal proceedings and hence we are unable to quantify the provisions for above claim at this stage, if any, and its consequential impacts on the financial statements of the Company.

We concluded our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013 (the Act). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained are sufficient and appropriate to provide a basis for our opinion on the Standalone Financial Statements.

Emphasis of Matter

We draw your attention to:-

(i) Note 37.2 to the Standalone Financial Statements, regarding invocation of corporate guarantee given by the company to the lender of JBF Petrochemicals Ltd. ("JPL"). The company has denied above invocation and is of the view that above invocation is not tenable for the reasons explained therein and hence no provision against the claims under the invoked corporate guarantee is considered necessary.

(ii) Note 46 to the Standalone Financial Statements that Company's secured assets including the manufacturing plants situated in Sarigam, Athola and Saily are no longer in the possession of the Company. Further, the management is also of the view that the operations of the Company without the manufacturing plants will be severely affected. With effect from 1st December, 2022 manufacturing operations from all locations have been discontinued. The Company's ability to sustain itself and generate revenues has been critically dented. Further, there is a significant and material impact on the "going concern" status of the Company and its future operations. The company has also transferred MAT credit entitlement of ₹ 64.09 Crores to Statement of Audited Financial Results under the head Tax Expenses "Short/(Excess) Provision of Tax of Earlier Years (Net)" as there is no possibility of earning revenue in future. The Company will find it difficult to meet its financial commitments. Therefore, the company ceases to continue as a going concern.

Further part secured assets including land, building, sundry debtors, investments, cash and bank balances, deposits, intangible assets (including the SAP software) and other movable assets amounting to ₹ 2396.64 Crores (Net of Provisions) have been sold to the MEPL by CFM on 6th June 2022 for ₹ 873.86 Crores and balance assets were sold to MEPL by CFM on 20th December 2022. The same has resulted into loss of ₹ 1503.59 Crores on account of repossession of secured assets by the Lender, which has been shown as exceptional items in the financial results of the company.

Further, the Company has received demand notice from Tamilnad Mercantile Bank Ltd, (TMBL) under Section 13(2) of the Securitization and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002 ("Sarsaesi Act") and the Rules framed thereunder for recovery of their dues vide letter dated 23rd November, 2021 amounting to ₹ 32.94 Crores plus future interest as applicable thereon in terms of loan agreement. TMBL has denied to release the charge on assets of the company. However, the remaining 14 lenders have assigned their debts to Asset Reconstruction Company CFM on dated 13.08.2021 and also transferred all the assets (fixed assets, investment and current assets) of the company to CFM on dated 11.11.2021. CFM has taken physical possession of all secured assets of JBF.

CFM has sent intimation for sale of all the secured assets of the company to Madelin Enterprises Private Limited (MEPL) for total consideration of ₹ 881 Crores on dated 11.05.2022.

However, TMBL has not agreed to the decision of remaining 14 lenders, therefore, it has in principal charge over the secured assets of the company on pro-rata basis, which have been subsequently transferred to CFM and finally to MEPL.

Thereafter, TMBL approached NCLT Ahmedabad for recovery of their dues from the Company and CFM. The matter is now pending before the NCLT Ahmedabad and it is subjudice.

(iii) Note 52 to the Standalone Financial Statements, regarding non-preparation of consolidated financial statement due to the reasons mentioned therein. The company has six subsidiaries and is required to present consolidated financial Statements. However, the Company has not prepared and presented the consolidated financial statements/Statements required by Companies Act, 2013 and Ind AS 110 "Consolidated Financial Statements". However, as on 31st March 2023, M/s. Madelin Enterprises Pvt. Ltd., has acquired the holding of JBF Industries Ltd. in its Subsidiary Company JBF Global Pte Limited situated at Singapore under the Sarsaesi Act.

(iv) Note 56 to the standalone financial statements, regarding the vacancy of the post of the Chief Executive Officer since 1st May, 2019 due to the reason as mention therein.

(v) During the year under review, tenure of the Independent Director ended on 28th November, 2022. Though, she was reappointed for second term but no special resolution for her reappointment was passed as required u/s 149(10) of the Companies Act, 2013. Therefore, the company failed to comply with the requirement of a minimum number of Independent directors as required by Sub-section (4) of Section 149 of the Companies Act 2013.

Our opinion is not modified in respect of these matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current year. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Basis for Qualified Opinion, Material Uncertainty Related to Going Concern & Emphasis of matters section, we have determined the matters described below to be key audit matters to be communicated in our report.

Other Information

The Company’s Board of Directors is responsible for the other information. The other information comprises the management discussion & analysis and director’s report included in the annual report but does not include the Standalone Financial Statements and our auditor’s report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to communicate the matter to those charged with governance. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company’s Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other Irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company’s financial reporting process.

Auditor’s Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to Standalone Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the management’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a) Except for the effects of matters described in the Basis for Qualified Opinion paragraph above, we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary or the purposes of our audit.
 - b) Except for the effects of matters described in the Basis for Qualified Opinion paragraph above, in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the statement of change in equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d) Except for the effects of matters described in the Basis for Qualified Opinion paragraph above, in our opinion, the aforesaid Standalone Financial Statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules 2015, as amended.
 - e) The matters described in paragraph "Basis for Qualified Opinion" and "Emphasis of Matter" have an adverse effect on the functioning of the Company.
 - f) On the basis of the written representations received from the directors as on 31st March, 2023 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2023 from being appointed as a director in terms of Section 164(2) of the Act.
 - g) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" to this report.
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid or provided by the Company to its directors

during the year is in accordance with the provisions of section 197 of the Act. The Remuneration paid to any Director is not in excess of limit laid down under section 197 of the Act.

- i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations as at 31st March 2023 on its financial position in its Standalone Financial Statements as referred in Note 37 to the Standalone Financial Statements.
 - ii. Except for the effects of matters described in the Basis for Qualified Opinion paragraph above, the Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. The management has represented that
 - a. to the best of it's knowledge and belief, other than as disclosed in the notes no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind to the accounts, of funds) by the company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - b. to the best of it's knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been received by the company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - c. Based on the audit procedures, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material mis-statement.
 - v. No dividend has been paid during the year by the company.
 - vi. Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 for maintaining books of account using accounting software which has a feature of recording audit trail (edit log) facility is applicable to the Company with effect from April 1, 2023, and accordingly, reporting under Rule 11(g) of Companies (Audit and Auditors) Rules, 2014 is not applicable for the financial year ended March 31, 2023.

ANNEXURE - "A" TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 2 (g) Under 'Report on Other Legal and Regulatory Requirements' of our report of even date on the standalone financial statements of JBF Industries Limited for the year ended 31st March 2023)

Report on the Internal Financial Controls Over Financial Reporting under clause(i) of sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **JBF Industries Limited** ("the Company") as of 31st March, 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting

("the Guidance Note") issued by The Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if

such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Qualified Opinion

According to the information and explanations given to us and based on our audit, the following material weakness has been identified in the operating effectiveness of the Company's internal financial control over financial reporting as on 31st March 2023: -

The Company did not have an appropriate internal control system for customer settlement through credit note, credit evaluation, pricing authorization, establishing customer credit limits and some of the export transactions without any advances/ letter of credits, which may result in the Company recognizing revenue without establishing reasonable certainty of ultimate collection.

Further, the company ceases to be going concern as referred in paragraph (ii) of Emphasis of Matters in the report on the audit of the standalone financial statements.

The Company also does not have Chief Executive Officer since 1st May, 2019 as referred in paragraph (iv) of Emphasis of Matters in the report on the audit of the standalone financial statements.

The company has also reappointed independent director for second term without special resolution as required u/s 149(10) of the Companies Act, 2013. Further, the company failed to comply with the requirement of a minimum number of Independent directors as required by Sub-section (4) of Section 149 of the Companies Act 2013 as referred in paragraph (v) of Emphasis of Matters in the report on the audit of the standalone financial statements.

A material weakness is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's annual financial statements will not be prevented or detected on a timely basis.

In our opinion, except for the effects/possible effects of above material weakness described above on the achievement of the objectives of the control criteria, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

We have considered the material weakness identified and reported above in determining the nature, timing and extent of audit tests applied in our audit of standalone financial statements of the Company for the year ended 31st March 2023, and these material weaknesses do not affect our opinion on the standalone financial statements of the Company.

NOTE TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2023**Note 1 CORPORATE INFORMATION:**

JBF Industries Limited ("the Company") is a limited Company domiciled and incorporated in India and its shares are publicly traded on the Bombay Stock Exchange (BSE) and National Stock Exchange (NSE), in India. The registered office of the Company is situated at Survey No. 273, Village Athola, Silvassa, Dadra and Nagar Haveli and Daman and Diu - 396230, India.

The Company is engaged in the manufacturing business of Polyester Chips, Polyester Yarn and Processed Yarn.

The financial statements for the year ended 31st March, 2023 were approved and adopted by board of directors in their meeting held on 30th May, 2023.

Note 2 BASIS OF PREPARATION AND PRESENTATION:

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS), as notified under section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015.

The financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities, which are measured at fair value / amortised cost.

The financial statements are presented in Indian Rupees (₹), which is the Company's functional and presentation currency and all values are rounded to the nearest crore with two decimal, except when otherwise indicated.

Note 3 SIGNIFICANT ACCOUNTING POLICIES:**3.1 Property, Plant and Equipment:**

Property, Plant and Equipment are carried at cost, net of recoverable taxes, trade discount and rebates less accumulated depreciation, amortisation and impairment losses, if any. Cost includes purchase price, borrowing cost and any cost directly attributable to the bringing the assets to its working condition for its intended use. In case of Property, Plant and Equipment, the Company has availed the carrying value as deemed cost on the date of transition i.e. 1st April, 2015.

Depreciation on the Property, Plant and Equipment is provided using straight line method over the useful life of assets as specified in schedule II to the Companies Act, 2013. Depreciation on Property, Plant and Equipment which are added / disposed off during the year, is provided on pro-rata basis with reference to the date of addition / deletion. Freehold land is not depreciated.

The assets' residual values, useful lives and method of depreciation are reviewed at each financial year end and are adjusted prospectively, if appropriate. The effects of any revision are included in the statement of profit and loss when the changes arises.

Capital work-in-progress includes cost of Property, Plant and Equipment under installation as at the balance sheet date.

Property, Plant and Equipment are eliminated from financial statement, either on disposal or when retired from active use. Profits / losses arising in the case of retirement / disposal of Property, Plant and Equipment are recognised in the statement of profit and loss in the year of occurrence.

Leasehold lands are amortised over the period of lease. Buildings constructed on leasehold land are depreciated based on the useful life specified in schedule II to the Companies Act, 2013, where the lease period of land is beyond the life of the building. In other cases, buildings constructed on leasehold lands are amortised over the primary lease period of the lands.

3.2 Investment Properties:

Investment properties are measured initially at cost, including transaction costs and net of recoverable taxes, trade discounts and rebates. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and impairment losses, if any. In case of Investment properties, the company has availed the carrying value as deemed cost on the date of transition i.e. 1st April, 2015.

Depreciation on investment properties is provided using straight line method over the estimated useful lives as specified in Schedule II to the Companies Act, 2013. Residual values, useful lives and method of depreciation of investment properties are reviewed at each financial year end and are adjusted prospectively, if appropriate. The effects of any revision are included in the statement of profit and loss when the changes arises.

Though the Company measures investment properties using cost based measurement, the fair value of investment property is disclosed in the notes.

Investment properties are derecognised either when they have been disposed off or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in the statement of profit and loss in the period of derecognition.

3.3 Intangible Assets :

Intangible assets are carried at cost, net of recoverable taxes, trade discount and rebates less accumulated amortisation and impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition of the intangible assets. In case of Intangible Assets, the Company has availed the carrying value as deemed cost on the date of transition i.e. 1st April, 2015.

Identifiable intangible assets are recognised when it is probable that future economic benefits attributed to the asset will flow to the Company and the cost of the asset can be reliably measured.

Computer softwares are capitalised at the amounts paid to acquire the respective license for use and are amortised over the period of useful lives or period of three years, whichever is less. The useful lives and method of amortisation are reviewed at each financial year end and are adjusted prospectively, if appropriate.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

3.4 Leases:

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgement. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an options to extend the lease if the Company is reasonably certain to exercise that options; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that options. In assessing whether the company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

The Company as a lessee

The Company's lease asset classes primarily consist of leases for land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

3.5 Inventories:

In general, all inventories are measured at lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale. Cost of inventories comprise of all cost of purchase, cost of conversion and other cost incurred in bringing the inventory to their present location and condition. Raw Materials are valued on FIFO basis and Stores & Spares, Packing materials and Consumables are determined on weighted average basis. Waste, by products and trial run products are valued at net realisable value. Finished products are valued at raw material cost (determined on weighted average Basis) plus costs of conversion, comprising labour costs and an attributable proportion of manufacturing overheads based on normal levels of activity.

3.6 Cash and Cash equivalents:

Cash and cash equivalent in the balance sheet comprise cash at banks, cash on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

3.7 Impairment of Non-Financial Assets - Property, Plant and Equipment and Intangible Assets:

The Company assesses at each reporting date as to whether there is any indication that any Property, Plant and Equipment and Intangible Assets or group of assets, called cash generating units (CGU) may be impaired. If any such indication exists the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognised in the statement of profit and loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

3.8 Discontinued operation and non-current assets (or disposal groups) held for sale:

Discontinued operation:

A discontinued operation is a component of the Company that has been disposed off or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose off such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of profit or loss.

Non-current assets (or disposal groups) held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when a sale is highly probable from the date of classification, management are committed to the sale and the asset is available for immediate sale in its present condition. Non-current assets are classified as held for sale from the date these conditions are met and are measured at the lower of carrying amount and fair value less cost to sell. Any resulting impairment loss is recognised in the Statements of Profit and Loss as a separate line item. On classification as held for sale, the assets are no longer depreciated. Assets and liabilities classified as held for sale are presented separately as current items in the Balance Sheet.

3.9 Financial Instruments – Initial Recognition, Subsequent Measurement and Impairment:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

I) Financial Assets - Initial Recognition and Measurement:

All financial assets are initially recognised at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition. Financial assets are classified, at initial recognition, as financial assets measured at fair value or as financial assets measured at amortised cost.

Financial Assets - Subsequent Measurement:

For the purpose of subsequent measurement, financial assets are classified in two broad categories:-

- a) Financial assets at fair value
- b) Financial assets at amortised cost

Where assets are measured at fair value, gains and losses are either recognised entirely in the statement of profit and loss (i.e. fair value through profit or loss), or recognised in other comprehensive income (i.e. fair value through other comprehensive income).

A financial asset that meets the following two conditions is measured at amortised cost (net of any write down for impairment) unless the asset is designated at fair value through profit or loss under the fair value option.

a) Business model test: The objective of the Company's business model is to hold the financial asset to collect the contractual cash flow.

b) Cash flow characteristics test: The contractual terms of the financial asset give rise on specified dates to cash flow that are solely payments of principal and interest on the principal amount outstanding.

A financial asset that meets the following two conditions is measured at fair value through other comprehensive income unless the asset is designated at fair value through profit or loss under the fair value option.

a) Business model test: The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flow and selling financial assets.

b) Cash flow characteristics test: The contractual terms of the financial asset give rise on specified dates to cash flow that are solely payments of principal and interest on the principal amount outstanding.

All other financial asset is measured at fair value through profit or loss.

Financial Assets - Equity Investment in Subsidiary:

The Company has accounted for its equity investment in subsidiary at cost.

Financial Assets - Derecognition

A financial assets (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's statement of financial position) when:

- a) The rights to receive cash flows from the asset have expired, or
- b) The Company has transferred its rights to receive cash flow from the asset.

Impairment of Financial Assets

In accordance with Ind AS 109, the Company uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of financial assets other than those measured at fair value through profit and loss (FVTPL).

Expected credit losses are measured through a loss allowance at an amount equal to:

- a) The 12 months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- b) Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument)

For trade receivables, Company applies 'simplified approach' which requires expected lifetime losses to be recognised from initial recognition of the receivables. The Company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analysed.

For other assets, the Company uses 12 month ECL to provide for impairment loss where there is no significant increase in credit risk. If there is significant increase in credit risk full lifetime ECL is used.

II) Financial Liabilities - Initial Recognition and Measurement:

The financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Financial Liabilities - Subsequent Measurement:

Financial liabilities are subsequently carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Financial Liabilities - Financial Guarantee Contracts:

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined and the amount recognised less cumulative amortisation.

Financial Liabilities - Derecognition:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another, from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

III) Derivative Financial Instruments

The Company uses various derivative financial instruments such as interest rate swaps, currency swaps, forwards and options to mitigate the risk of changes in interest rates and exchange rates. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are also subsequently measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to the statement of profit and loss.

3.10 Provisions, Contingent Liabilities and Contingent Assets:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event. It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using equivalent period government securities interest rate. Unwinding of the discount is recognised in the statement of profit and loss as a finance cost. Provisions are reviewed at each balance sheet date and are adjusted to reflect the current best estimate.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the Notes to the Financial Statements. Contingent assets are not recognised. However, when the realisation of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognised as an asset.

3.11 Dividend Distribution:

Annual dividend distribution to the shareholders is recognised as a liability in the period in which the dividends are approved by the shareholders. Dividend payable and corresponding tax on dividend distribution is recognised directly in other equity.

3.12 Revenue Recognition and Other income:

Revenue Recognition

Sale of Goods and Services:

The Company derives revenues primarily from sale of Polyester Chips, Polyester Yarn and Processed Yarn.

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration entitled in exchange for those goods or services. Generally, control is transfer upon shipment of goods to the customer or when the goods is made available to the customer, provided transfer of title to the customer occurs and the Company has not retained any significant risks of ownership or future obligations with respect to the goods shipped.

Revenue from rendering of services is recognised over the time by measuring the progress towards complete satisfaction of performance obligations at the reporting period.

Revenue is measured at the amount of consideration which the Company expects to be entitled to in exchange for transferring distinct goods or services to a customer as specified in the contract, excluding amounts collected on behalf of third parties (for example taxes and duties collected on behalf of the government). Consideration is generally due upon satisfaction of performance obligations and a receivable is recognized when it becomes unconditional.

The Company does not have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Contract Balances:

Trade Receivables:

A receivable represents the Company's right to an amount of consideration that is unconditional.

Contract Liabilities:

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made. Contract liabilities are recognised as revenue when the Company performs under the contract.

Other Income:

Incentives on exports and other Government incentives related to operations are recognised in the statement of profit and loss after due consideration of certainty of utilization/receipt of such incentives.

Interest Income:

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Dividend Income:

Dividend Income is recognised when the right to receive the payment is established.

Rental Income:

Rental income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included as other income in the statement of profit or loss.

3.13 Foreign Currency Reinstatement and Translation:

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in statement of profit and loss except to the extent of exchange differences which are regarded as an adjustment to interest costs on foreign currency borrowings that are directly attributable to the acquisition or construction of qualifying assets, are capitalized as cost of assets. Additionally, exchange gains or losses on foreign currency borrowings taken prior to 1st April, 2016 which are related to the acquisition or construction of qualifying assets are adjusted in the carrying cost of such assets.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the transaction. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the exchange rates prevailing at the date when the fair value was determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance costs. All other finance gains / losses are presented in the statement of profit and loss on a net basis.

In case of an asset, expense or income where a non-monetary advance is paid/received, the date of transaction is the date on which the advance was initially recognized. If there were multiple payments or receipts in advance, multiple dates of transactions are determined for each payment or receipt of advance consideration.

3.14 Employee Benefits:

Short term employee benefits are recognised as an expense in the statement of profit and loss of the year in which the related services are rendered.

Leave encashments accounted as Short-term employee benefits and is determined based on projected unit credit method, on the basis of actuarial valuations carried out by third party actuaries at each Balance Sheet date.

Contribution to Provident Fund, a defined contribution plan, is made in accordance with the statute, and is recognised as an expense in the year in which employees have rendered services.

The cost of providing gratuity, a defined benefit plans, is determined using the projected unit credit method, on the basis of actuarial valuations carried out by third party actuaries at each Balance Sheet date. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to other comprehensive income in the period in which they arise. Other costs are accounted in the statement of profit and loss.

Remeasurements of defined benefit plan in respect of post employment and other long term benefits are charged to the other comprehensive income in the year in which they occur. Remeasurements are not reclassified to statement of profit and loss in subsequent periods.

3.15 Taxes on Income:

Income tax expense represents the sum of current tax (including MAT and income tax for earlier years) and deferred tax. Tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognised directly in equity or other comprehensive income, in such cases the tax is also recognised directly in equity or in other comprehensive income. Any subsequent change in direct tax on items initially recognised in equity or other comprehensive income is also recognised in equity or other comprehensive income.

Current tax provision is computed for income calculated after considering allowances and exemptions under the provisions of the applicable Income Tax Laws. Current tax assets and current tax liabilities are off set, and presented as net.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the Balance sheet and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are generally recognised for all deductible temporary differences, carry forward tax losses and allowances to the extent that it is probable that future taxable profits will be available against which those deductible temporary differences, carry forward tax losses and allowances can be utilised. Deferred tax assets and liabilities are measured at the applicable tax rates. The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available against which the temporary differences can be utilised. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Minimum Alternative Tax (MAT) is applicable to the Company. Credit of MAT is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the MAT credit becomes eligible to be recognised as an asset, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT credit entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified period.

3.16 Borrowing Cost

Borrowing costs specifically relating to the acquisition or construction of qualifying assets that necessarily takes a substantial period of time to get ready for its intended use are capitalised (net of income on temporarily deployment of funds) as part of the cost of such assets. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. For general borrowing used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalisation is determined by applying a capitalisation rate to the expenditures on that asset. The capitalisation rate is the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalised during a period does not exceed the amount of borrowing cost incurred during that period. All other borrowing costs are expensed in the period in which they occur.

3.17 Earnings Per Share:

Basic earnings per share is computed using the net profit or Loss for the year attributable to the shareholders' and weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed using the net profit or Loss for the year attributable to the shareholder' and weighted average number of equity and potential equity shares outstanding during the year including share options, convertible preference shares and debentures, except where the result would be anti-dilutive. Potential equity shares that are converted during the year are included in the calculation of diluted earnings per share, from the beginning of the year or date of issuance of such potential equity shares, to the date of conversion.

3.18 Current and Non-current Classification:

The Company presents assets and liabilities in statement of financial position based on current/non-current classification.

The Company has presented non-current assets and current assets before equity, non-current liabilities and current liabilities in accordance with Schedule III, Division II of Companies Act, 2013 notified by MCA.

An asset is classified as current when it is:

- a) Expected to be realised or intended to be sold or consumed in normal operating cycle,
 - b) Held primarily for the purpose of trading & manufacturing.
 - c) Expected to be realised within twelve months after the reporting period, or
 - d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.
- All other assets are classified as non-current.

A liability is classified as current when it is:

- a) Expected to be settled in normal operating cycle,
 - b) Held primarily for the purpose of trading, & manufacturing.
 - c) Due to be settled within twelve months after the reporting period, or
 - d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.
- All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. Deferred tax assets and liabilities are classified as non-current assets and liabilities. The Company has identified twelve months as its normal operating cycle.

3.19 Fair Value Measurement:

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- a) In the principal market for the asset or liability, or
- b) In the absence of a principal market, in the most advantageous market for the asset or liability.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy.

3.20 Off-setting Financial Instrument:

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable rights to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable rights must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or counterparty.

Note 4 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS:

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based on its assumptions and estimates on parameters available when the financial statements were prepared. However, existing circumstances and assumptions about future developments may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

4.1 Property, Plant and Equipment, Investment Properties and Intangible Assets:

Management reviews the estimated useful lives and residual values of the assets annually in order to determine the amount of depreciation to be recorded during any reporting period. The useful lives and residual values as per Schedule II of the Companies Act, 2013 or are based on the Company's historical experience with similar assets and taking into account anticipated technological changes, whichever is more appropriate.

4.2 Income Tax:

The Company reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to an adjustment to the amounts reported in the standalone financial statements.

4.3 Contingencies:

Management has estimated the possible outflow of resources at the end of each annual reporting financial year, if any, in respect of contingencies/claim/litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

4.4 Impairment of Financial Assets:

The impairment provisions for financial assets are based on assumptions about risk of default and expected cash loss. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

4.5 Impairment of Non-Financial Assets:

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash Generating Units (CGU) fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent to those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less cost of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

4.6 Defined Benefits Plans:

The Cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

4.7 Recoverability of Trade Receivable:

Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

4.8 Provisions:

Provisions and liabilities are recognised in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability require the application of judgement to existing facts and circumstances, which can be subject to change. Since the cash outflows can take place many years in the future, the carrying amounts of provisions and liabilities are reviewed regularly and adjusted to take account of changing facts and circumstances.

4.9 Fair Value Measurement of Financial Instruments :

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

4.10 Classification of Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgement. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an options to extend the lease if the Company is reasonably certain to exercise that options; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that options. In assessing whether the company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

4.11 Global Health Pandemic on Covid-19

The outbreak of corona virus (COVID-19) pandemic globally and in India is causing significant disturbance and slowdown of economic activity. The Company's operations and revenue were impacted due to COVID-19. However, it has no further significant impact with respect to COVID 19 pandemic during the year ended March 31, 2023.

*The Company has received show cause notice from the Excise department which mainly relate to CENVAT credit on sales commission. The Company does not foresee any losses on this account.

- 37.2** The Company had issued a corporate guarantee of USD 463.96 Million (equivalent of ₹ 3,809.71 Crore) to the lenders of JBF Petrochemicals limited ("JPL"), a step down subsidiary. One of the lenders of JPL vide its letter dated 24th April, 2018 invoked corporate guarantee to the extent of USD 252.00 Million (equivalent of ₹ 2,069.24 Crore) as JPL has defaulted in servicing its borrowings towards principal and interest thereon. Company has denied above invocation and is of the view that above corporate guarantee was valid only up to one year from the Commercial operation date i.e. 31st March, 2017 and all obligation of the Company towards above lenders stand rescinded, have fallen away and ceased to exist as on 1st April, 2018. In view of the above, invocation of corporate guarantee on 24th April, 2018 is not legally tenable and hence no provision is required towards the guarantee so invoked. Company has discontinued recognition of guarantee commission w.e.f. 1st April, 2018.
- 37.3** One of the operational creditors of JBF RAK LLC, situated at UAE (JBF RAK), a subsidiary of the Company, has made an application with National Company Law Tribunal (NCLT) under Insolvency and Bankruptcy Code, 2016 against the Company, for supply of raw materials to JBF RAK and claimed for a debt of ₹ 128.48 Crore (US\$ 19,899,091.53) as per notice dated 17th February, 2020. Management is of the view that in view of negotiation with the above creditor by JBF RAK and based on past settlement by the Company with above creditors in respect of raw material purchased by the Company, there will be no liability on account of it to the Company and hence no provision is required towards above claim.

In case of failed to export obligation as per terms of the scheme within stipulated period, the Company may have to pay the duty saved on import along with interest and penalty thereon. The management is confident of fulfillment of export obligation in the stipulated period.		

- 37.5** Management is of the view that above litigations will not have any material impact on the financial position of the company.

Note 38- Employee Benefits

- 38.1** As per Ind AS 19 'Employee Benefits', the disclosure of Employee benefits as defined in the Ind AS are given below:

(a) Defined Contribution Plan:

The contribution to provident fund is made to Employees' Provident Fund managed by Provident Fund Commissioner. The contribution towards ESIC made to Employees' State Insurance Corporation. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation.

(b) Defined Benefit Plan:

The present value of Employees' Gratuity obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

(d) The estimate of rate of escalation in Salary considered in actuarial valuation, takes into account inflation, seniority, promotion and other retirement factors including supply & demand in the employment market. The above information is certified by the actuary.		

38.2 Sensitivity analysis:

(₹ In Crore)

Particulars	Changes in assumptions	Effect on Gratuity obligation (Increase/(Decrease))
For the year ended 31st March, 2022		
Salary growth rate	+1%	1.42
	-1%	(1.27)
Discount rate	+1%	(1.25)
	-1%	1.45
For the year ended 31st March, 2023		
Salary growth rate	+1%	0.03
	-1%	(0.02)
Discount rate	+1%	(0.02)
	-1%	0.03

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. In presenting the above sensitivity analysis, the present value of defined benefit obligation has been calculated using the projected unit credit method at the end of reporting period, which is the same as that applied in calculating the defined obligation liability recognized in the balance sheet.

38.3 Risk exposures**Actuarial Risk**

It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:

Interest Risk

The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

Longevity Risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary Risk

The present value of the defined plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

Variability in withdrawal rates:

If actual withdrawal rates are higher than assumed withdrawal rate then the Gratuity benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.

38.4 The following payments are expected towards Gratuity in future years:

(₹ in Crore)

Year ended	Cash flow
31st March, 2024	0.07
31st March, 2025	0.00
31st March, 2026	0.00

31st March, 2029	0.00
31st March, 2029 to 31st March, 2033	0.03

38.5 The average duration of the defined benefit plan obligation at the end of the reporting period is 4 years (as at 31st March 2022: 21 years).

41.2 Fair Valuation Techniques used to determine Fair Value

The Company maintains procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the fair values:

- Fair value of trade receivable, cash and cash equivalents, other bank balances, current borrowings, trade payables, other current financial assets and other current financial liabilities are approximate at their carrying amounts largely due to the short-term maturities of these instruments.
- The fair values of non-current borrowings and security deposits are calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including credit risk. The fair values of non-current borrowings are approximate at their carrying amount due to interest bearing features of these instruments.
- The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.
- Fair values of quoted financial instruments are derived from quoted market prices in active markets.
- Equity Investments in subsidiaries are stated at cost.

41.3 Fair Value Hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation techniques:-

- Level 1 :- Quoted prices / published NAV (unadjusted) in active markets for identical assets or liabilities. It includes fair value of financial instruments traded in active markets and are based on quoted market prices at the balance sheet date and financial instruments like mutual funds for which net assets value (NAV) is published by mutual fund operators at the balance sheet date.
- Level 2 :- Inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices). It includes fair value of the financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on the Company specific estimates. If all significant inputs required to fair value an instrument are observable then instrument is included in level 2.

- iii) Level 3 :- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs). If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

The following table provides hierarchy of the fair value measurement of Company's asset and liabilities, grouped into Level 1 (Quoted prices in active markets), Level 2 (Significant observable inputs) and Level 3 (Significant unobservable inputs) as described below:

41.6 Description of the valuation processes used by the Company for fair value measurement categorised within level 3:-

At each reporting date, the Company analyses the movements in the values of financial assets and liabilities which are required to be remeasured or re-assessed as per the accounting policies.

The Company also compares the change in the fair value of each financial asset and liability with relevant external sources to determine whether the change is reasonable. The Company also discusses of the major assumptions used in the valuations.

For the purpose of fair value disclosures, the Company has determined classes of financial assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Note 42 :- Financial Risk Management Objective and Policies

The Company is exposed to market risk, credit risk and liquidity risk. Risk management is carried out by the company under policies approved by the board of directors. The Company's documented risk management policies are effective tool in mitigating the various financial risk to which the business is exposed to in the course of daily operations. This Risk management plan defines how risks associated with the Company will be identified, analysed, and managed. It outlines how risk management activities will be performed, recorded, and monitored by the Company. The basic objective of risk management plan is to implement an integrated risk management approach to ensure all significant areas of risks are identified, understood and effectively managed, to promote a shared vision of risk management and encourage discussion on risks at all levels of the organization to provide a clear

understanding of risk/benefit trade-offs, to deploy appropriate risk management methodologies and tools for use in identifying, assessing, managing and reporting on risks, and to determine the appropriate balance between cost and control of risk and deploy appropriate resources to manage/optimize key risks. Activities are developed to provide feedback to management and other interested parties (e.g. Audit committee, Board etc.). The results of these activities ensure that risk management plan is effective in the long term.

42.1 Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: foreign currency rate risk, interest rate risk and other price risks, such as equity price risk and commodity risk. The sensitivity analyses is given relate to the position as at 31st March 2023 and 31st March 2022.

The sensitivity analysis excludes the impact of movements in market variables on the carrying value of post-employment benefit obligations, provisions and on the non-financial assets and liabilities. The sensitivity of the relevant statement of profit and loss item is the effect of the assumed changes in the respective market risks. The Company's activities expose it to a variety of financial risks, including the effects of changes in foreign currency exchange rates and interest rates. This is based on the financial assets and financial liabilities held as at 31st March, 2023 and 31st March, 2022.

(a) Foreign Exchange Risk and Sensitivity

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities. The Company transacts business primarily in USD and Euro. The Company has obtained foreign currency loans and has foreign currency trade payables, derivative instruments and receivables and is therefore, exposed to foreign exchange risk. The Company is regularly reviews and evaluates exchange rate exposure arising from foreign currency transactions.

The following table demonstrates the sensitivity in the USD, JPY and Euro to the Indian Rupee with all other variables held constant. The impact on the Company's profit before tax due to changes in the fair values of monetary assets and liabilities is given below:

Unhedged Foreign currency exposure as at 31st March, 2022	Currency	Amount in FC	(₹ In Crore)
Trade Receivables	USD	5,33,79,392	405.15
Loan given	USD	87,74,655	66.60

USD	(0.27)	0.27	4.39	(4.39)
Increase / (Decrease) in profit before tax	(0.27)	0.27	--	--

b) Interest rate risk and sensitivity :-

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. In order to optimize the Company's position with regards to interest expenses and to manage the interest rate risk treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

The table below illustrates the impact of a 0.5% increase in interest rates on interest on financial liabilities assuming that the changes occur at the reporting date and has been calculated based on risk exposure outstanding as of date. The year end balances are not necessarily representative of the average debt outstanding during the year. This analysis also assumes that all other variables, in particular foreign currency rates, remain constant.

50 bp increase / decrease the profit before tax by	11.80	(11.80)	12.22	(12.22)

c) Commodity price risk:-

The Company's raw materials i.e. Purified Terephthalic Acid (PTA) & Monoethylene Glycol (MEG) and finished goods i.e. Polyester Chips, Partially Oriented Yarn (POY) and Texising Yarn (TEX) are petrochemical products. Commodity price risk arises due to fluctuation in prices of petrochemical products. The Company mitigate the risk by natural hedge as any increase/decrease in raw materials price directly reflect the finished goods price.

42.2 Credit Risk

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period. To assess whether there is a significant increase in credit risk, the Company compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as:

- Actual or expected significant adverse changes in business,
- Actual or expected significant changes in the operating results of the counterparty,
- Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations,
- Significant increase in credit risk on other financial instruments of the same counterparty,
- Significant changes in the value of the collateral supporting the obligation or in the quality of the third-party guarantees or credit enhancements.

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Company. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognized as income in the statement of profit and loss. The Company measures the expected credit loss of trade receivables based on historical trend, industry practices and the business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends.(refer Note 47)

a) Trade Receivables:-

The Company extends credit to customers in normal course of business. The Company considers factors such as credit track record in the market and past dealings with the Company for extension of credit to customers. The Company monitors the payment track record of the customers. Outstanding customer receivables are regularly monitored. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets. The Company has also taken security deposits in certain cases from its customers, which mitigate the credit risk to some extent. No single customer accounted for 10% or more of revenue in any of the years presented except mentioned in Note No. 44.3. Therefore, the Company does not expect any material risk on account of non-performance by Company's counterparties.(refer Note 47)

The Company has used practical expedient by computing the expected credit loss allowance for trade receivables based on provision matrix. The provision matrix taken into account historical credit loss experience and adjusted for forward looking information. The expected credit loss allowance is based on ageing of the days the receivables are due.

The following table summarizes the Gross carrying amount of the trade receivable and provision made.

(₹ in Crore)

Particulars	As at 31st March, 2023		As at 31st March, 2022	
	Gross Carrying Amount	Loss Allowance	Gross Carrying Amount	Loss Allowance
Trade Receivable	8.36	--	942.23	581.13

b) Financial instruments and cash deposits:-

The Company considers factors such as track record, size of the institution, market reputation and service standards to select the banks with which balances are maintained. Credit risk from balances with bank is managed by the Company's finance department. Investment of surplus funds are also managed by finance department. The Company does not maintain significant cash in hand. Excess balance of cash other than those required for its day to day operations is deposited into the bank.

For other financial instruments, the finance department assesses and manage credit risk based on internal assessment. Internal assessment is performed for each class of financial instrument with different characteristics.

42.3 Liquidity Risk.

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Company's objective is to, at all times, maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company limits its liquidity risk by ensuring funds from trade receivables and bank facilities are available.

The table below provides undiscounted cash flows towards financial liabilities into relevant maturity based on the remaining period at the balance sheet to the contractual maturity date.

iii) Refer Note 46.

42.4 Competition and Price Risk

The Company faces competition from local and foreign competitors. Nevertheless, it believes that it has competitive advantage in terms of high quality products and by continuously upgrading its expertise and range of products to meet the needs of its customers.

Note 43 -Capital Management

For the purpose of Company's capital management, capital includes issued capital, all other equity reserves and debts. The primary objective of the Company's capital management is to maximise shareholders value. The Company manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

The Company monitors capital using gearing ratio, which is net debt divided by total capital (equity plus net debts). Net debt are non-current and current debts as reduced by cash and cash equivalents, other bank balances, current investments and fixed deposit more than 12 months. Equity comprises all components including other comprehensive income.

Note 46- Going Concern

The consortium of bankers led by Bank of Baroda had filed an application with the National Company Law Tribunal (NCLT), Ahmedabad for recovery of their dues in September 2018 under the Insolvency and Bankruptcy Code, 2016. The said application has been dismissed and disposed off by the Court in April 2021. Subsequently, the lenders had filed an appeal before the NCLAT in May 2021. The appeal before NCLAT was consequently withdrawn by Bank of Baroda in November 2021.

On 13th August, 2021, all the lenders (except Tamilnad Mercantile Bank Ltd) had assigned the debts along with all the rights and interests on the secured assets to CFM Asset Reconstruction Private Limited (CFM) under the Securitization and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002 (SARFAESI) by executing two Assignment Agreements both dated 13th August, 2021. A total of 14 fourteen lenders aggregating approximately 99 % of the total debt of the Company had assigned their debt to an Asset Reconstruction Company called CFM as on 13th August, 2021. The Board of Directors' are no longer in the helm of affairs of the Company w.e.f - 13th August, 2021. CFM was closely monitoring and managing the day to day plant and corporate office operations through Deloitte Touche Tohmatsu India LLP, Mumbai who had been appointed as the nodal agency by CFM. Further, to the intimation of the said assignment, CFM had also issued a demand notice under Section 13(2) of the SARFAESI Act, 2002 and the rules framed there under to recover the entire dues including principal and interest. In response to the said notice, the Company had given an "In principle consent" to handover the secured assets which includes land, building, movable assets, inventory, sundry debtors, investments in subsidiaries & step-down subsidiary, intangible assets (including the SAP accounting software) and other current and non-current assets of the Company to CFM. On 11th November 2021, CFM took physical possession of the secured assets of JBF Further the Company was in receipt of Intimation for sale of secured assets by way of private treaty under the SARFAESI Act, 2002 on 11th May, 2022 and thereafter, proceeded to sell the same by way of private treaty under the SARFAESI Act to Madelin Enterprises Private Limited (MEPL).

Further to the above, the part secured assets including land, building, sundry debtors, investments, cash and bank balances, deposits, intangible assets (including the SAP software) and other movable assets have been sold to the MEPL by CFM on 6th June 2022 and balance assets were sold by CFM to MEPL on 20th December, 2022. In addition, MEPL has also taken over the affairs and operations of all the three plants and the corporate office and the current Board of Directors have no control over the same. With effect from 1st December, 2022 manufacturing operations from all locations have been discontinued.

In addition, the Company has received demand notice from Tamilnad Mercantile Bank Ltd, (TMBL) under Section 13(2) of the Securitization and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002 ("Sarfaisi Act") and the Rules framed thereunder for recovery of their dues vide letter dated 23rd November, 2021, amounting to ₹ 32.94 Crores plus future interest as applicable thereon in terms of loan agreement. TMBL has denied to release the charge on assets of the company. However, the remaining 14 lenders have assigned their debts to Asset Reconstruction Company CFM on dated 13.08.2021 and on 11th November 2021, CFM took physical possession of the secured assets of JBF. CFM has sent intimation for sale of all the secured assets of the company to Madelin Enterprises Private Limited (MEPL) for total consideration of ₹ 881 Crores on dated 11.05.2022.

However, TMBL has not agreed to the decision of remaining 14 lenders, therefore, it has in principal charge over the secured assets of the company on pro-rata basis, which have been subsequently transferred to CFM and finally to MEPL. Thereafter TMBL approached NCLT Ahmedabad for recovery of their dues from the Company and CFM. The matter is now pending before the NCLT Ahmedabad and it is subjudice.

In light of the above facts, it is evident that the Company's secured assets including the manufacturing plants situated in Sarigam, Athola and Saily are no longer in the possession of the Company. Further, the management is also of the view that under the above mentioned circumstances, the operations of the Company without the manufacturing plants will be severely affected. The Company's ability to sustain itself and generate revenues has been critically dented. Further, there could be a significant and material impact on the "going concern" status of the Company and its future operations. The company has also transferred MAT credit entitlement of ₹ 6,409 Lakhs to Statement of Audited Financial Results under the head Tax Expenses "Short/(Excess) Provision of Tax of Earlier Years (Net)". The Company will find it difficult to meet its financial commitments.
